Contents.

Introduction.

Sect. Page

I. The Aim of the Treatise. Genesis of the Idea 11
2. What Is a Theory of Truth? 12
3. The Non-Philosopher's Idea of Truth according to the Philosophers 14
4. Explicit and Implicit Opinions 16
5. The Questionnaire-Method 19

Chapter I.
The Questionnaires.

6. General Classification 22
7. Questionnaires of Class A 22
8. Questionnaires of Class B 24
9. Questionnaires of Class C 28
10. Questionnaires of Class D 30
11. Some Remarks on the Examination Technique 30
12. A Selection of Typical Replies to Questionnaires 32

Chapter II.
Fundamental Formulations among the Replies.

13· Definition of A-, B-, and Other Fundamental Formulations 39
14. Reproduction of a Part of the ABfrl 42
15. Age and Sex of the ps 44
16. Social Groups Represented 45
17. Education of the ps 45
18. Duration of Examination 46
19. Ps having Considered the q.c.c. before being Examined 47
20. Number of Formulations in the ABfrl 47
21. Mean Variability of the ABf 48
22. Tendency to Produce Several ABf 49
23. Number of ABf and Duration of Examination 50
24. Spontaneity of the Answers to q.c.c. 54
25. Adequacy of the ABf as Expressions of Opinions 56
26. The D-Formulations 57
27. Questionnaires concerning the Ambiguous Df 58
28. The F-Formulations 59
29. The M-Formulations. Moral Conceptions of Truth 59
30. Statistical Analysis of the Mf 60
31. Moral Views and Age, Education 62
32. Moral Views and Type of Questionnaire 62

Chapter III.

Typology of Fundamental Formulation-Roots.

Sect. Page

33. How to Group the ABfr 63
34. The Grl 65
35. The Relative Homogenity and Consistency of the Different Grl-groups 69
36. Some of the Grl-groups Contain a Multiplicity of Formulations 69
37. The Gr2-principle of Grouping 73
38. The Gr3-principle of Grouping 75
39. Tendency of the ps to Adhere to One and Only One Group 76
40. ABf on Positive and ABf on Negative Values. The Principle of Excluded Middle 78
41. The Gr4-principle of Grouping 78
42. The Size of the Gr4-groups. Distribution of Afr and Bfr 79
43. The Gr5-principle of Grouping 80
44. Relative Size of the Gr5-groups 80
45. The Gr6-principle of Grouping 81
46. Size of Gr6-groups 83
47. Is there Any "Natural Classification" on ABfr? 84
48. Concluding Remarks on the Size of the Groups 84
49. Correlations between Age, Education, and Groups of Afr 85
50. Correlation between Grl, Gr2, Gr3, and Age, Education 86
51. Low Age - and Low Education-Groups according to the Grouping Principles Grl, Gr2, and Gr3 88
52. High Age and High Education Groups according to Grl, Gr2, and Gr3 90
53. Gr4- and Gr5-groupes. Relation to Age, Education 90
54. Relation between Gr6-groups and Age, Education 90
55. Variability of ABf and the Factors Age, Education 91
56. Development of ABfr 92
57. Crude and Discerning Classifications 93
58. Concluding Remarks 94

Chapter IV.

The Main Features of Amateur-Theories.

59. Introduction. Ps who are Not Represented by Any Af. 96
60. Ps who Deny, Doubt or Ignore the Existence of c. c 97
61. A Possible Source of Suggestion 100
62. Ps whose ABf do Not Picture Adequately their Opinions 101
63. Do the Ps Understand the q. c. c.? 102
64. The Aim and Scope of a "Qualitative List of Answers to q. c. c." . (ABfl.) 105
65. Classification of Fundamental Formulations 108
66. The ABfl 112
67. The Subject Matter of Fundamental Formulation Roots and their Frequency Distribution 112
68. Expressions used as Synonyms 114
69. Frequency of the Different Standpoints towards Absolutes 118
70. Standpoints towards Different Types of Absolutes 121
71. Standpoints towards Absolutes. Correlations with Age, Education 121
72. Standpoints towards Absolutes. Correlation with Sex 124
73. Standpoint towards Absolutes. Correlation with Grl-groups 124
74. The Confidence-Test. Introduction 126
75. Description of Test 127

Sect. Page
76. The Q and C as Measures of Confidence-Suggestibility ... 128
77. Q, C and Standpoints towards Absolutes ... 128
78. Relation between C and Ga2, 1. Ga2. 2 ... 131
79. Prognostic Value of Characteriological Traits. Can the Contents of Truth-Theories be Forecast? ... 131
80. Introduction to the Statistical Analysis of the Example of Something True (o.so.s.) ... 131
81. Instances of Examples ... 132
82. Classification of Examples ... 135
83. Frequency of the Different Gel-groups ... 136
84. Thing-Examples ... 137
85. Age, Education, and Gel ... 138
86. Choice of Examples and External Surroundings during the Examination ... 138
87. Certainty of Mathematical Statements in the Eyes of the ps ... 139
88. Introduction to the Discussion of the ps Attitude towards the Afr of Others ... 139
89. The qt DA ... 140
90. Asserting, Neutral, and Critical Evaluations (ae, ne, and ce) ... 142
91. Statistical Results of qt DA ... 143
92. Critics and Type of Afr ... 144
93. How Certain Distinguished Afr are Looked Upon ... 144
94. The qt DB ... 145
95. The qt DC ... 146
96. The qt DD ... 147
97. Attitude of the ps towards the Products of Professionals as Reflected by the Relative Frequency of ae, me, and ce ... 147
98. The ps' Arguments against Professional Af. Examples ... 149
99. Qt DE ... 151
100. Are the ps More Critical towards Afr of ps of Low Education than towards Those of ps of High Education ... 151
101. General Comparison between Attitude towards Professional and Attitude towards Amateur-Af ... 151
102. Correspondence between Arguments of Amateurs and Arguments of Professionals ... 153
103. Amount of Labour Necessary to Improve the Reliability of the Statistical Results of This Work ... 153
104. Problems Solved Wholesale to Avoid a Closer Touch with Facts ... 156
105. Main Theses Formulated in Programmatical Form ... 159

Chapter V.

The Theories of Philosophers on the Options of Non-Philosophers.

106. Introduction ... 163
107. General Views Imputed to the Amateurs ... 164
108. Alleged Thruth-Theories of the Non-Philosopher ... 169
109. Alleged Philosophers of the Non-Philosophers ... 171
110. Truth-Theories as Pseudo-Knowledge ... 173
111. Pedagogical Remarks ... 174
112. Philosophy versus Science ... 176
113. Scientific Problems Associated with the Truth-Problem ... 177
